THE MARKET MOMENT

India Pharma Is Entering a New Era

India is the pharmacy of the world. A \$60 billion industry, third largest globally by volume, supplying 20% of the world's generic medicines and more than 60% of global vaccines to over 200 countries. That is the foundation. But the foundation is shifting.

But the industry is changing.

Biologics are rising.

Regulatory scrutiny is tightening.

Supply chains are shifting.

Global competition is intensifying.

The conversations shaping this future need a new platform. A place where the industry's most important discussions meet the people who make the decisions.

Express Pharma World Expo is that platform.

A media-led, outcome-driven exhibition — built not to replicate what already exists, but to fill the space the industry has been waiting for. Not the largest floor in India. The most focused.

The conversations shaping the future of Indian pharma need a new platform. A place where the industry's most important discussions meet the people who make the decisions.

Express Pharma World Expo — Founding Principle

THE DIFFERENTIATION

What Makes This Platform Different

Built on industry intelligence

Over three decades, Express Pharma has developed a deep understanding of how the industry consumes, evaluates, and acts on information. That media experience now shapes every layer of the expo, from sessions to exhibitor categories to speaker selection. The result: a platform designed for relevance and engagement.

A media-powered platform, not a three-day island

The expo does not begin on Day 1 or end on Day 3. It runs on Express Pharma's year-round editorial, digital, and events ecosystem, reaching pharma professionals across print and digital. Exhibitors gain pre-event editorial coverage, live content capture, and post-event amplification across India's most-read pharma media brand. Presence here compounds.

Decision-maker density, not visitor volume

Exhibitors here are not fishing in a general crowd. They are in a room where the majority of attendees can sign a purchase order, approve a partnership, or initiate a deal. The difference is not incidental. It is the point.

Mumbai's home expo, built by people who know the industry

Mumbai is where Indian pharma thinks, decides, and acts. Express Pharma has been in that conversation for over three decades. This expo is the natural next step. It is the trusted local voice of Indian pharma, building the platform this city's industry has always deserved.

THE ORGANISER

The Express Pharma Advantage

Every expo has an organiser. Not every expo has an organiser with 32 years of editorial credibility, a readership of 125,000 pharma professionals, and the backing of one of India's most trusted media institutions. The difference matters.

32 Years of Editorial Heritage

Founded in 1994 as Express Pharma Pulse, Express Pharma is India's longest-running pharma-specific business publication. With a domain authority of 52 — the highest among Indian pharma publications — and a readership concentrated in the decision-maker layer of the industry, it is the publication that the industry's most consequential leaders read to stay informed.

A Proven Events Track Record

Express Pharma's events portfolio spans more than eight years and multiple formats: the FDD Conclave on formulation development, the PPL Conclave on packaging and labelling, the Pharma CXO Summit, the PLI Conclave, Express Pharma Summits in all major pharma hubs across the country.. These events have consistently convened CDSCO officials, regulatory authorities, and senior industry leaders from India's largest pharma companies. The expo is a natural, validated extension of this track record — at scale.

The Indian Express Group's 'Journalism of Courage'

Express Pharma is a platform of The Indian Express Group — a media institution with a national reputation for editorial independence and integrity. The group's "Journalism of Courage" brand promise is not a tagline. It is a 90-year editorial tradition. That tradition is the foundation of the trust exhibitors, attendees, and partners bring to every Express Pharma platform.
